

Webinar:
**AI and The Future of Risk
Management**

Aclaimant, the Only RMIS With AI Inside

**PARDON THE WAIT.
WE WILL BE STARTING
SOON!**

While we wait, use the Zoom chat feature to start the conversation by letting us know where you are joining from!

Note:

- All attendees are on mute for the presentation.
- Feel free to drop your questions or comments in the Q&A.
- This presentation includes Zoom polls and engagement questions - please be ready to participate!
- The presentation portion of today's webinar is about 40 minutes followed by a brief Q&A.
- Recording will be sent out to registrants after the webinar is complete.

AGENDA

- Introductions
- What is the goal of AI?
- Demystifying AI terminology
- AI as (just) another business tool
- Top reasons that risk and safety managers are not utilizing AI today
- For those that have started the AI journey, how did they do it?
- The top 4 problems AI will address for risk and safety managers in the next 18 months
- Aclaimant's approach to AI
- Q&A

Your Hosts for Today's Webinar!

Tom Wimberly
Chief Product Officer

David Wald
President & Co-Founder
